HARTMAN PACIFIC WOOD PRODUCT PURCHASING POLICY

As Australia's leading outdoor furniture importer, Hartman Pacific is committed to help protect endangered forests and to ensure that there will be timber for future generations. We pledge to give preference to sourcing of wood products originating from forests managed in a responsible way and to eliminate wood purchases from endangered regions of the world.

We expect our vendors and their suppliers of wood products to maintain compliance with laws and regulations pertaining to their operations and the products they manufacture. We will regularly obtain from suppliers information relating to their environmental practices and the clearest practicable information regarding their sources of raw material used in the manufacture of wood products. We will only accept and display labels or certificates that include environmental or sustainability claims if these are supported by publicly available standards drawn up in a fully participatory transparent and objective manner and backed by independent inspection.

We are firmly committed to making best efforts to identify the sources of wood used for our products, preferably labelled according to the Forestry Stewardship Council (FSC) rules or other recognised forest certification bodies.

A handwritten signature in black ink, appearing to read "G. Rundle".
